EXPERIENCE

Infosys   2022 - Now

The project and role I have on this company is to develop and maintain solutions for an e-commerce platform that handles transactions, form validations, metrics and data visualizations.

Engrane Digital S. de R. L. de C. V.   2022 - 2022

The project and main role I had in this company was to develop and maintain an insurance car company / e-commerce / appointment app within the constraints of our clients.

CustomSoftwareSolutionz   2022 - 2022

My primary role at this company was developing and maintaining a telecomm application that managed phone data for multiple clients. It was an exciting project that challenged me to innovate and create solutions that met our clients' needs.

Collins Aerospace   2019 - 2022

At this company, I had the opportunity to work on various exciting projects. As a full-stack developer, I developed an internal application for micro services in the Aerospace sector. Later, I joined the Mobile team, where we developed and maintained apps used in airplanes. Finally, I worked on a data management app for airplane metrics.

Catarsis Multimedia   2018 - 2019

As a freelancer in this company, I worked on multiple projects for clients, including blog and e-commerce development and maintenance of static and dynamic sites. I ensured each project was delivered on time and to the client's satisfaction.
